## **Dear Cattle Producer,**

Season wise, last year was a trying year in our area with too much rain in thunderstorms in January followed by an ordinary Autumn and then a very dry Winter and early Spring.

Disappointing pregnancy tested-empty rates resulted, along with a poor hay making season but recent rains have given us hope for a good start to 2025.

This year we are offering 50 bulls, polled and horned, and they do look well, reflecting our many top-quality bull purchases over our stud's lifetime.

The calf sales have opened stronger in 2025 and many are experiencing an optimistic view about the year's cattle prices.

Good rains up North have helped and if we get a thorough Autumn rain for western Victoria and SA, it will make big improvements to the market for 2025 in Victoria.

Last Autumn we purchased four good sires. Two of them – Wirruna Smokin' Joe and Yavenvale Tayler Made – are super sires. A half share in Yavenvale Top Notch with Remolea Stud added to our poll purchases. A very good Yarram Park bull purchase, Yarram Emperor T151, was used by AI as he was lame at joining time. We look forward to the progeny of all these new sires.

Principal poll sires this year are Quamby Plains Quandary, Allendale Jet, Yavenvale Ripper, Kerlson Pines Nardoo, Centennial Gamble and Banemore McLaren.

The main horned sires are Newcomen Nebraska, Yarram Park Mojo, Yarram Park Storm and Yarram Park Raffle.

We retained over 100 bull calves at marking in July. In October, all bull calves are grouped and classed by Mat Marshall in tandem with Michael Glasser. The number to retain as bulls is reduced to somewhere in the 70s. The following year in December, those bulls are again classed and put into lot order for cataloguing for the March sale. Much attention is given to structure, temperament and overall soundness, together with their general qualities as top meat-producing sires.

This process gives a good deal of confidence to our guarantee that goes with every bull sold and is referred to later in this catalogue. We try to provide sound working animals but sometimes things do go wrong. That's life. We would appreciate any queries regarding any problems in a bull to be backed by a veterinarian examination.

Sale day weights will be available on a supplementary sheet and bulls we feel will be suitable for joining to heifers will be identified with an H.

This year we are again selling by video auction in our sale barn. The sale will be interfaced with AuctionsPlus.

We are delighted to welcome back Michael Glasser to the auctioneer's stand. Michael sold our first draft way back in 2004 and apart from the past four sales, has been with us every year. It is fantastic to hear his voice again drumming up interest in our stock.

The photos in this catalogue and the videos are the work of specialist in the field, Brandon Sykes. The bulls will be displayed as usual and are only a short walk to inspect should anybody wish to do so during the auction. We again thank Geoff Moncrieff, who scans our bulls each year, and Main Street Veterinarian Clinic which conducts our breeding soundness examinations in accordance with the accepted protocol. With our extensive AI program, we are reliant on the expertise of our AI technician, Tim Faithfull, who also pregnancy tests all our joined females efficiently and accurately. Our sale is conducted by Elders Bairnsdale.

All are experts in their field and we appreciate and thank them for their support throughout the year. Likewise, we would like to warmly thank all other purchasing agents and their clients.

Sale bulls were on display at the Field Days on 3 February and will be available for viewing again on Wednesday 5 March, the day of the Ensay and Omeo Calf Sales. Enquiries are welcome anytime and additional viewings by arrangement. We would be pleased to see you at Kanangra for our 22nd sale on Wednesday, 12 March 2025.

*Barry Newcomen*

## **Inspection**

The sale bulls will be available for inspection on Wednesday 5 March, the day of the Ensay and Omeo Calf Sales, or at any time by arrangement. We would be glad to show you around. Please call us to arrange a time.

## **Breeding Soundness**

Bulls for this sale have been examined for breeding soundness using a protocol agreed upon between Herefords Australia and the Cattle Vets Association.

## **Health**

All sale bulls have been vaccinated with CSL Ultravac 5-in-1 and treated with Vetmec and Dectomax products throughout their life. The stud is EU and J-BAS-6 accredited.

## **Dehorning**

All Newcomen Herefords horned sale bulls are dehorned. Despite our most diligent efforts some bulls persist on growing small scurs. These scurs are included in the two-year guarantee. Any bull requiring veterinary treatment on the scurs within the first two years will be settled by the vendor, providing we are first consulted.

## **The Newcomen two-year guarantee**

All breeding cattle sold by Newcomen Herefords are fertile and structurally sound to the best of our knowledge. If an animal becomes infertile or breaks down due to reasons other than injury or misadventure, at any time in the next two years, we will:

1. Provide you with a satisfactory replacement if available, or
2. Issue you with a credit equal to the purchase price less the salvage value to be used to purchase any animal in future Newcomen Herefords sales.

This is not a Life Assurance Policy. Normal care needs to be taken as we cannot replace an animal that is injured or dies for any reason. We recommend you insure all animals purchased against injury and death. An insurance representative will be available on sale day. Any claims are to be accompanied by a certificate from a registered veterinarian. All vet costs are the responsibility of the purchaser.

## **Initial care of your new bull**

All our bulls have been run in groups throughout their life. They are not used to being alone so it is imperative you provide some company for them from the moment they are unloaded from the transport. Once the bull becomes familiar with his new surroundings, you can choose to move the other stock away from him.

All the bulls have been handled with cattle dogs, horses, motorbikes, by vehicle and on foot so they will adapt to whatever you use, but remember to give them time to adjust to their new surroundings.

## Bull name and classification

After the name of a bull in our catalogue there is a letter in brackets which identifies its breeding status.

- (H) means the animal is of horned genetics of at least five generations. Only (H) bulls can be used in a horned stud if it is to remain as a horned stud.
- (P) means it is a polled animal.
- (S) means it is an animal of poll breeding but has small horns or scurs.
- (H#) means the animal has some poll genetics but has horns.
- (PP) Homozygous Poll.

A poll stud can use all four of the types whereas a horned stud can only use (H).

In addition to those classifications some bulls also have the letters (HPR) after their name. This means the bull is Herd Performance Recorded or is a commercially-bred bull rather than a registered stud animal.

# Ensay

## WINERY

Tel: (03) 5157 3203

[www.ensaywinery.com.au](http://www.ensaywinery.com.au)

Email: [ensaywinery@bigpond.com](mailto:ensaywinery@bigpond.com)

Great Alpine Road, Ensay, Vic. 3895

### **David & Jenny Coy**

Ensay Winery is proud to support  
Newcomen Herefords 22nd  
Annual Bull Sale 2025.

Our rammed earth winery and cellar door is a family run business open for tastings and sales of Shiraz, 2022 Cabernet Sauvignon, Pinot Noir, Chardonnay and Sparkling Shiraz.

These quality cool climate wines are well recognised throughout the region and are 100% grown and made on the property.

#### **Hours of trade: 10am–5pm**

Weekends, public holidays and school holidays.

Other times by appointment.

# Boost Livestock performance

with Anipro Liquid Supplements.

**Anipro**  
Liquid Supplements

## Customised nutrition supplements delivered straight to your paddock

Improving results in livestock systems requires year-round nutrition planning. Anipro is a molasses-based liquid supplement that complements the forage you have available to optimise health and condition and therefore boost production, performance and profitability in your herd.

### KEY BENEFITS

- ✓ Molasses based liquid supplement
- ✓ Provides essential protein, minerals and vitamins
- ✓ Up to 27% improvement in forage intake
- ✓ Fully serviced program saves time and money
- ✓ Promotes improved digestibility in dry feeds, hays, and stubbles

Contact your local Gippsland Anipro Distributor and Territory Manager

Larry Cutler on 0455 071 711
